

NUWASH

Degreasing Agent and Tool Cleaner

Description

An extremely powerful solvent based anti-bacterial cleaner for the removal of grease, oil, wax, bitumen and some types of paint from concrete and a wide range of other surfaces.

Advantages

- Excellent searching and penetrative properties.
- Ready for use, easily applied to vertical surfaces.
- Dissolves oil and grease which may then be wiped away.
- Cleaner for equipment which has been used in the preparation and application of resin systems and paint coatings.
- Easily dissolves polystyrene formers, making voids/boxouts ready for concreting.

Packaging

Nuwash is available in 5 and 25 litre containers.

Storage

Nuwash should be stored away from foodstuffs and out of the reach of children.

Health & Safety

Goggles and gloves should be worn. If using in confined spaces provide adequate ventilation. See COSHH data for full details.

Application Instructions

Where heavy oil or grease contamination is present Nuwash should be applied undiluted on to the surface and agitated, after which the surface should be wiped clean.

Measures must be taken to ensure that the Nuwash does not enter any drainage systems.

Technical Support

Through our technical department and laboratories we can offer a comprehensive service to specifiers and contractors.

Technical representatives are available throughout the UK to provide further information and arrange demonstrations.

Kingston House, 3 Walton Road, Pattinson North, Washington, Tyne & Wear, NE38 8QA, United Kingdom.
